DESIGNER · ILLUSTRATOR · MARKETER

Designer with twelve years across brand identity, campaigns, retail displays, print and digital. I built the brand system for a retail group that grew from 149 to 329 stores, ran the identity, photography and film for one of the country's largest premium cigar festivals for nine years, and started my career putting art onto dielines for national consumer brands. Open to full-time roles and contract work.

EXPERIENCE

★ Marketing & Digital Brand Manager 2017 – 2026

Smoker Friendly International · tristan.design/SF

- Built the brand system (icon set, color palette and type pairings) from a retro logo and applied it across hundreds of stores as the group grew from 149 to 329 locations.
- Designed for five retail brands (Smoker Friendly, Tobacco Depot, Payless Pipes & Cigars, Cigars on Sixth and Havana Manor), adapting each campaign to the featured brand's own look.
- Ran web, social, local listings and event design; produced flyers, in-store posters, signage, register ads, web banners, email and social for monthly vendor promotions, raffles and store events.

● Brand Lead, Photographer & Filmmaker 2017 – 2026

Rocky Mountain Cigar Festival, Broomfield · tristan.design/RMCF

- Designed and evolved the festival's identity for nine consecutive years: logo lockup, palette, type and icon set, refreshed every year and rebuilt every two.
- Ran each year's campaign across web, social, email and print; shot the event photography and cut a highlight film every fall.
- The festival began selling out after I took over, and eventually sold out in record time.

✦ Co-Founder & Design Lead 2025 – PRESENT

Sea of Grass · seaofgrass.studio

- Co-founded a studio with Bryce Nielsen exploring new technology in art and design.
- Built the sixteen-mode visual synthesizer that opens tristan.design, and Packfold, an interactive folding carton that exports a real, cuttable CAD dieline.

■ Graphic Designer 2014 – 2016

US Display Group · tristan.design/us-display-group

- Designed corrugated point-of-purchase displays for national consumer brands, including Assets by Spanx, SunnyD, DeWalt, Olay and Disney Frozen licensing, working to each client's brand standards.
- Handled dieline art, prepress, flatbed printing and large-format machine cutting, plus 3D renderings and physical prototypes for client presentations.

SKILLS

BRAND & CAMPAIGN

Brand identity and systems, campaign design, social, email and web assets, typography, color, illustration

PRINT & PRODUCTION

Print-ready files, prepress, dielines, point-of-purchase and large-format, 3D rendering, prototyping

PHOTO, VIDEO & WEB

Event photography, highlight films, motion graphics, HTML/CSS and interactive work

TOOLS

Adobe Photoshop, Illustrator, InDesign, After Effects and Premiere; AI tools for ideation and production

EDUCATION

BACHELOR OF FINE ARTS

East Tennessee State University
